Research Assistant at Stanford Institute for Economic Policy Research

October 2020 - Present

- Contributed to Race and Welfare in America project, conducting an analysis on the roots of welfare inequalities in America over recent decades. The goal of the research is to trace the effects of discrepancies in consumption, leisure, inequality, mortality, and morbidity in order to establish a more cohesive and racially representative index to measure domestic welfare.
- Responsibilities include: python data analysis in Jupyter notebooks, literature review, survey design and distribution

Stanford StartX Student-In-Residence Scholar

May 2021 - September 2021

- Chosen out of hundreds of applicants as one of 5 recipient groups of Stanford affiliated startup incubator StartX's Student-In-Residence Scholarship of \$9000 in startup funding
- Students who receive the Student-in-Residence scholarship also earn exclusive access to StartX's network of hundreds of highly experienced and industry-leading mentors including successful StartX entrepreneurs, VCs, Stanford faculty and alumni, coaches and domain experts.

LookUp Social Innovator

January 2021 - May 2021

- One of 40 youth leaders awarded the LookUp StartUp Social Innovation Grant in 2021 for designing a ground-breaking solution to digital wellbeing and humane technology.
- Working with a highly-respected executive mentor, Social Innovators transform their ideas into action in order to address market forces and shift social norms to a healthier more humane digital world.

Co-founder & COO for Asmbl, Social Advocacy Non-Profit

Sept 2020 - Present

- One of five founding members of Asmbl, a not-for-profit social media platform devoted to student advocacy
- Major contributor to the design and establishment of the company's mission statement and core values
- Oversaw internal company operations, established and implemented employee communication policies, managed onboarding process for new hires
- Responsible for seeking out investment opportunities, managing all team logistics and productivity
- Acting CLO: secured pro-bono legal engagement with Cadwalader, Wickersham & Taft LLC and Pulse Policy; researched and produced founding company documents (bylaws, terms of service, privacy policy, etc.)
- Established Board of Directors
- Prototyped platform UI/UX design using Figma, built company website (www.asmbl-app.org)

Research Intern at Stanford Fong Lab, Department of Pathology

Summers 2017 - 2018

- Certified in laboratory research training at age 16
- Contributed to the development of Hepatitis C vaccine
- collected and interpreted statistics on Hepatitis B infectivity in order to affect national policy regarding requirement and distribution of the vaccine
